Contents

	1	Contributors to this issue
	2	Erratum
A. N. Tischler and **M. H. Tischler**	3	Base induced reaction at the benzyl position of N-benzylbenzamide [*Dilithiated amides; Phenethylamine derivatives*]
E. J. Corey and **D. L. Boger**	5	Benzothiazoles as carbonyl equivalents
E. J. Corey and **D. L. Boger**	9	Application of benzothiazoles to carbon–carbon bond formation in organic synthesis
E. J. Corey and **D. L. Boger**	13	New annulation processes for fused and spiro rings based on the chemistry of benzothiazoles
D. L. Boger	17	Concerning the stereochemistry of 9-methyl-Δ^1-3-octalone
A. P. Kozikowski and **W. C. Floyd**	19	Borohydride induced cleavage of azo derivatives of β-ketoesters. A useful variant of the Japp–Klingemann reaction for C-nucleoside synthesis [*Formycin; Borohydride cleavage; Phenylhydrazones*]
H. W. Heine and **C. Tintel**	23	The synthesis of a 2,4-benzodiazepine-1,5-dione and a 1,3-diazepine-4,7-dione [*New entry to 2,4-benzodiazepine derivatives; Ring contractions of 2,4-benzodiazepines*]
G. A. Koppel and **L. J. Nummy**	25	A new nonaqueous hydroxylating procedure: the direct conversion of penicillin to desacetyl cephem [*β-Lactam; Carbonate; Non-aqueous; Alkyl halide; Hydrolysis*]
D. Van Engen, J. Clardy, E. Kho-Wiseman, P. Crews, M. D. Higgs and **D. J. Faulkner**	29	Violacene: a reassignment of structure [*Halogenated marine monoterpenes; X-Ray diffraction; ^{13}C Magnetic resonance*]

[*continued on back cover*]

ISSN 0040–4039

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year.

1978 subscription, including postage and insurance,
U.S. $440 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals: In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of US $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year.

1979 subscription, including postage and insurance,
U.S. $450 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals: In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of US $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year

1979 subscription, including postage and insurance,
U.S. $450 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals. In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of US $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

U.S. COPYRIGHT LAW APPLICABLE TO USERS IN THE U.S.A.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, the copier pay the per-copy fee included in the code. The appropriate remittance should be forwarded with a copy of the first page of the article to the Copyright Clearance Center Inc., P.O. Box 765, Schenectady, NY 12301. This consent does not extend to other kinds of copying such as copying for general distribution, for advertising or promotional purposes, for creating new collective works or for resale. Copies of articles published prior to 1978 may be made under similar conditions.

1978

Contents [*continued from back cover*]

Y. Tamura, J. Haruta, S. Okuyama and **Y. Kita** — 3737 Preparation and reactions of alkyl and aryl isopropenyl carbonates. Novel alkoxy- and aryloxycarbonylations of amines [*Chloromercuriacetone; Hexamethylphosphoric triamide (HMPA)*]

T. Koizumi, H. Amitani and **E. Yoshii** — 3741 A new method of preparing optically active alkyl phenyl phosphonates [*Use of L-proline ethyl ester for the preparation of chiral phosphonates*]

K. Kojima and **K. Sakai** — 3743 Total synthesis of 9(0)-methanoprostacyclin and its isomers

A. Nishinaga, T. Shimizu and **T. Matsuura** — 3747 Mechanism of regioselective hydroperoxylation of 2,4,6-tri-*t*-butylphenol by base-catalyzed oxygenation [*Base-catalyzed migration of hydroperoxides from 2,4,6-tri-t-butylphenol*]

T. Ikariya, K. Osakada and **S. Yoshikawa** — 3749 Regio-selective reaction of cyclic anhydride with $RuH_2(PPh_3)_4$ [*Reduction; Lactone; Regioselectivity; Hydride complex; Ruthenium; Carbon monoxide deoxygenation*]

Y. Ueno, H. Setoi and **M. Okawara** — 3753 Deacylative condensation — I. A new facile method for the direct α-methylenation of ester or lactone starting from monosubstituted active methylene compounds

M. Tomoi, M. Ikeda and **H. Kakiuchi** — 3757 Polymer-supported phosphoric triamides as catalysts for phase-transfer reactions [*Polymer-supported catalyst*]

M. Hisatome, T. Hashiyama and **K. Yamakawa** — 3759 Intra- and inter-molecular carbon–carbon bond formation by photosensitized oxygenation of vinylferrocenes [*6-Membered cyclic peroxides*]

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year.

1979 subscription, including postage and insurance,
U.S. $450 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals. In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of U.S. $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

U.S. Copyright Law applicable to Users in the U.S.A.

The Article Fee Code on the first page of an article in this journal indicates the copyright owner's consent that in the U.S.A. copies may be made for personal or internal use, provided the stated fee for copying beyond that permitted by Sections 107 or 108 of the United States Copyright Law is paid. The appropriate remittance should be forwarded with a copy of the first page of the article to the Copyright Clearance Center Inc., P.O. Box 765, Schenectady, NY 12301. If a code does not appear, copies of the article may be made without charge, provided permission is obtained from the publisher. The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

Contents *[continued from back cover]*

J. W. Blunt, M. P. Hartshorn, M. H. G. Munro and **S. C. Yorke** — 4417 A novel, C_9 dichlorodienol metabolite of the red alga ***Plocamium cruciferum***

B. Castro, J. R. Dormoy and **D. Le Nguyen** — 4419 Fragments coupling in peptide synthesis — I. The basis of quantitative relationships between structure and epimerization

R. P. Deshpande, A. S. C. Prakasa Rao and **U. R. Nayak** — 4423 Unique ester participation in the lead tetraacetate oxidative decarboxylation of the secondary half ester of α-longiforic acid — a ***cis*** 1,4-dicarboxylic acid from longifolene

S. N. Suryawanshi and **U. Ramdas Nayak** — 4425 Unique mercuration-halogenation of isoprenoid ectocyclic olefins: novel ωω-dihalides from longifolene and camphene via ωω-dimercurichlorides

— 4429 Methylcyclopropane–halogen reaction: facile homoallylic functionalization in longifolene/camphene via longicyclene/cyclene

G. P. Voutsas, C. C. Venetopoulos, A. Kálmán L. Párkányi, G. Hornyák and **K. Lempert** — 4431 1,2,4,-Triazines and condensed derivatives — XXI. On the formation and the crystal structure of the 2 : 1 adduct of 6-aza-2-thiothymine and triethyl amine

D. Christophe, R. Promel and **M. Maeck** — 4435 Trapping of a 4,5-didehydropyrimidine with furan

G. Adembri, A. Camparini, D. Donati, F. Ponticelli and **P. Tedeschi** — 4439 Photochemical rearrangement of isoxazol-5-ylhydrazines and *N*-(3-methyl-4-phenylisoxazol-5-yl)acetamidine

C. B. Reese and **L. Yau** — 4443 Reaction between 4-nitrobenzaldoximate ion and phosphotriesters

R. N. Warrener, R. A. Russell and **G. J. Collin** — 4447 The preparation of 7-methylenebenzonorbornadiene, and its use in the synthesis of isobenzofulvene: coping with little fragmentation! [***Cope rearrangement; Cycloaddition reactions; Structure determination; PMR spectra; Unusual aromatisation reaction***]

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year.

1979 subscription, including postage and insurance,
U.S. $450 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals. In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of U.S. $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Publishing and Advertising Offices

Headington Hill Hall, Oxford OX3 0BW, England.
Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Published 52 issues per year

1979 subscription, including postage and insurance,
U.S. $450 *per annum*, for multiple reader institutions.

All subscription enquiries should be addressed to: The Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Special reduced rates to individuals. In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure whereby individuals, whose institution takes out a subscription, may purchase a second or additional subscriptions for their personal use at a much reduced rate of U.S. $60.00 *per annum*.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

The International Organ for the rapid publication of preliminary communications in organic chemistry

Founded by Sir Robert Robinson
Co-chairmen of the honorary editorial advisory board
Sir Derek Barton London R. B. Woodward Cambridge, Mass.

Contents

5059 Contributors to this issue

5060 Errata

Y. W. Lee and **J. M. Pepper** 5061 Lignin and related compounds – VII. The isolation of a trimeric lignin compound by the hydrogenolysis of spruce wood [*Natural products; Polyphenolics; NMR; Mass spectra*]

T. Cohen, D. Ouellette and **W. M. Daniewski** 5063 Base-induced ring closure of bis-dithioacetals via an apparent carbenoid. A novel route to functionalized cyclobutanes and cyclopentanes [*Elimination of thiophenyl; Carbene–anion reaction; Dianion; 2-(Phenylthio)cyclobutanone*]

F. Khouri and **M. K. Kaloustian** 5067 The sulfhydrolysis of dialkoxycarbonium ions. A novel route to thionesters [*Heterocyclic cation; Ion combination; Tetrahedral intermediate; New* Na_2S-CH_3CN *reagent*]

J. W. Pavlik and **R. M. Dunn** 5071 Photoisomerization of 2,6-di-t-butyl-4-hydroxypyrylium cation. Evidence for a Dewar-type intermediate [*Phototransposition reaction; Dewar-pyrylium cation; Photorearrangement*]

S. Current and **K. B. Sharpless** 5075 Carbonyl participation in the addition of p-chlorophenylselenenyl bromide to (*E*)-4-hexenal: a new route to 2,6-dideoxylglycosides [*Olefinic sugar; Cyclization; Asymmetric synthesis*]

J. C. Saddler, P. C. Conrad and **P. L. Fuchs** 5079 Conjugate-addition reactions of organometallic reagents to γ-oxygenated-α,β-unsaturated sulfones: control of stereochemistry at the β-position [*Organolithium; Intramolecular conjugate addition; β-Alkoxy vinyl sulfone*]

J. Akers, M. F. Dube, L. M. Trefonas, J. W. Timberlake and **R. Majeste** 5083 Structure and reactions of *N,N'*-bis(2-isocyanato-2-propyl) diazene (**1**)

M. R. Detty 5087 Phenylselenotrimethylsilane. A novel source of phenylselenide anion

[*continued on back cover*]

ISSN 0040–4039
TELEAY (51) 5059–5146 (1978)

Pergamon Press: Oxford New York Paris Frankfurt

Contents *[continued from front cover]*

D. Liotta, P. B. Paty, J. Johnston and **G. Zima** 5091 Synthetic applications of phenyltrimethylsilylselenide [*Mixed silicon–selenium reagents, Additions to enones*]

K. L. Sadana and **P. C. Loewen** 5095 A rapid and efficient synthesis of ribonucleotides [*Diribonucleotides; Arylsulphonyltetrazolides; Alkyl silyl protection; Phosphotriester method*]

S. Osmund de Silva, J. N. Reed and **V. Snieckus** 5099 Directed lithiation of *N,N*-diethylbenzamides. Regiospecific synthesis of contiguously tri- and tetra-substituted alkoxybenzenes [*Oxygenated phthalic anhydrides; Phthalides; sec*-BuLi; *Alkaloid; Anthraquinone synthons*]

S. Osmund de Silva and **V. Snieckus** 5103 Directed lithiation of *N,N*-diethylbenzamides. Regiospecific routes to unsymmetrical anthraquinone natural products [*Phthalides; o-Benzylbenzoic acids, Friedel–Crafts reaction*]

S. Osmund de Silva, I. Ahmad and **V. Snieckus** 5107 Directed lithiation of *N,N*-diethylbenzamides. A short route to phthalideisoquinoline alkaloids [*One-pot synthesis of homophthalic acid; Bromo-homophthalic anhydride→phthalide-α-carboxamide rearrangement*]

M. Tada and **H. Hirano** 5111 Photochemistry of host–guest complex — I. Photochemical reaction of alkyl aryl ketones with 18-crown-6 [*Complexation and photoreactivity*]

T. Kawashima, T. Otsubo, Y. Sakata and **S. Misumi** 5115 Syntheses of three [2.2]pyrenophanes as an excimer model [*u.v.; Fluorescence spectra*]

T. Kamiya, T. Oku, O. Nakaguchi, H. Takeno and **M. Hashimoto** 5119 A novel synthesis of nocardicins and their analogues [*β-Lactam antibiotic; 3-Aminonocardicinic acid* (3-*ANA*); *β-Lactam synthesis*]

Y. Masaki, K. Hashimoto and **K. Kaji** 5123 A novel terminal functionalization of farnesol and related polyisoprenoids. Application to the synthesis of solanesol [*Benzenesulfenyl chloride addition; Methallylic sulfides; Synthesis of polyprenyl alcohol*]

R. Rajee and **V. Ramamurthy** 5127 Oxidation of thiones by singlet and triplet oxygen [*Conversion of thiones to carbonyls; Self sensitisation and oxidation*]

V. Fiandanese, G. Marchese and **F. Naso** 5131 Mono- and bis-addition of cuprates to benzenesulphonylacetylene [*Stereoselective addition; Double* C–C *formation; Synthesis of sulphones*]

A. H. Jackson, M. G. Lee, R. T. Jenkins, S. B. Brown and **B. D. Chaney** 5135 Oxidative ring opening of octaethylchlorohaemin and its *meso*-hydroxy derivative to octaethylbiliverdin

A. R. Forrester, J. Henderson, E. M. Johansson and **R. H. Thomson** 5139 Acyloxy-aminyls and -amidyls [*E.S.R.; Spin trap; Acyl nitroso intermediate*]

J. D. M. Herscheid and **H. C. J. Ottenheijm** 5143 A practical synthesis of *N*-hydroxy-α-amino acid esters [*Borane–pyridine reduction; Imino-ether*]

N. A. R. Hatam and **D. A. Whiting** 5145 The absolute configuration of sequirin-D, a biogenetically novel norlignan; synthesis of (±)-dimethylsequirin-D

December 1978 Number 52

Contents

5147 Contributors to this issue

T. J. Atkins and **J. E. Richman** 5149 Polyaminophosphoranes – III. P(III)–P(V) tautomerism in four nitrogen cage phosphoranes

J. T. Carlock and **M. P. Mack** 5153 A mild quantitative method for the synthesis of a variety of heterocyclic systems [*Cyclic ethers; Diethylazodicarboxylate (DEAD)-triphenylphosphine (TPP); Oxidative–reductive dehydration; New cyclization technique; Aziridines*]

R. J. Sundberg and **J. D. Bloom** 5157 Chloroacetamide photocyclization of indole derivatives. Synthesis of desethylcatharanthine derivatives [*Dihydropyridine; Diels–Alder; Catharanthine analogs*]

N. F. Haley 5161 An efficient synthesis of 1,3-dithiol-2-thiones from propargyl halides and sodium *tert*-butyltrithiocarbonate

E. Leete and **R. M. Riddle** 5163 Steric inhibition of the rotation of the phenyl groups in 2,6-dimethyl-1-phenylcyclohexanol and dendrocrepine detected by means of carbon-13 nuclear magnetic resonance [*Dynamic ^{13}C NMR; Indolizidine alkaloids; Stereochemistry*]

D. Caine and **A. S. Frobese** 5167 A direct synthesis of α,β-butenolides by reaction of lithium β-lithioacrylates with carbonyl compounds [*β-Carboxy vinyllithium reagents; Halogen–metal exchange; Nucleophilic additions*]

F. A. Davis, R. Jenkins, Jr. and **S. G. Yocklovich** 5171 2-Arenesulfonyl-3-aryloxaziridines: a new class of aprotic oxidizing agents (oxidation of organic sulfur compounds)

G. Stork, A. A. Ozorio and **A. Y. W. Leong** 5175 *N,N*-diethylaminoacetonitrile, a generally useful latent acyl carbanion

[*continued on back cover*]

Contents [*continued from front cover*]

A. I. Meyers and **D. L. Comins**	5179	***N***-methylamino pyridyl amides (MAPA) – II. An efficient acylating agent for various nucleophiles and sequential addition to unsymmetrical ***tert***-alcohols [***Esters; Aldehydes; Ketones; Amides; Grignards; Organolithium reagents***]
J. R. McCarthy, J. L. Moore and **R. J. Cregge**	5183	A convenient new method for converting aromatic methyl ethers to phenols with sodium, cyanide-dimethyl sulfoxide [***Methoxynaphthalaleneacetonitriles***]
S. W. Pelletier, N. V. Mody and **J. Bhattacharyya**	5187	Active manganese dioxide: a reagent for constructing the oxazolidine ring of C_{20}-diterpenoid alkaloids [***Atisine- and Veatchine-type alkaloids; Oxidative cyclization of β-hydroxyethanolamines***]
J. D. White, B. G. Sheldon, B. A. Solheim and **J. Clardy**	5189	Intramolecular Diels–Alder addition of citraconate esters. Stereoselective reaction via endo and exo modes
G. R. Chambers and **M. Jones, Jr.**	5193	The phenylcarbene rearrangement as a carbene transport system: gas-phase reactions of ***p-tert***-butylphenylcarbene, ***p***-trimethylsilylphenylcarbene, ***p***-trimethylgermylphenylcarbene and ***p***-trimethylstannylphenylcarbene [***Metal-substituted carbenes; Intramolecular rearrangement***]
A. Kergomard, M. F. Renard et **H. Veschambre**	5197	Réductions microbiologiques de cétones éthyléniques
J.-L. Ripoll et **M.-C. Lasne**	5201	Réactions rétrodiéniques – VIII. Synthèse de la diméthylène-2,4 cyclobutanedione–1,3 par double réaction de rétro-Diels–Alder
G. Alvernhe, E. Kozlowska-Gramsz, S. Lacombe-bar et **A. Laurent**	5203	Synthèse d'α,β-fluoroamines et d'α-fluorocétones par action de l'acide fluorhydrique sur des aziridines et des azirines [***Stereo and regioselectivity; RMN^{19}F***]
J. Toullec et **M. Alaya**	5207	Nouvelle méthode expérimentale pour l'obtention des constantes d'équilibre cétone–acetal. Application aux acétophenones substituées
M. Node, K. Nishide, M. Sai and **E. Fujita**	5211	Dealkylation of esters and cleavage of alcoholic carbon–oxygen bond of lactones with aluminium halide-thiol system [***S_N2-type reaction; ω-Ethylthio-carboxylic acid***]
H.-E. Högberg and **M. Hjalmarsson**	5215	The synthesis of ruscodibenzofuran [***Quinone phenol condensation reactions; Deoxygenation of phenols; Aromatic o-hydroxyketones; NMR***]
A. Mangia and **A. Scandroglio**	5219	A simple method for the preparation of Δ^3-cephalosporanic esters
B. V. Burger, M. le Roux, H. S. C. Spies, V. Truter and **R. C. Bigalke**	5221	Mammalian pheromone studies – III. (E,E)–7,11,15-trimethyl-3-methylenehexadeca-1,6,10,14-tetraene, a new diterpene analogue of β-farnesene from the dorsal gland of the springbok, ***Antidorcas marsupialis*** [^{13}***C NMR***]
P. Bey and **D. Schirlin**	5225	General approach to the synthesis of α-difluoromethyl amines as potential enzyme-activated irreversible inhibitors [***Malonic synthesis; Difluoromethylation; Curtius rearrangement***]
M. C. Grossel, A. K. Cheetham and **J. M. Newsam**	5229	The effect of bulky substituents on the conformation of cyclohexa-1,4-diene
D. R. Crump	5233	2-Propylthietane, the major malodorous substance from the anal gland of the stoat (***Mustela erminea***)
K. Reuter and **W. P. Neumann**	5235	New nitrogen containing radicals from nitro and organometallic compounds: R^F-NO -OMR$_3$ (R^F=aryl,alkyl), Ar-N -OMR$_3$, and Ar-N(OMR$_3$)-N Ar (M=Si,Ge,Sn) [***Nitroxyls; Aminyls; Silyl radicals; Nitro compounds; Nitroso compounds***]
V. Ceré, S. Pollicino, E. Sandri and **A. Fava**	5239	Stereochemistry of the alkylation of α-lithio thiepane and thiocane 1-oxides
